Change your Windows 10 Login Password

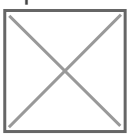

Windows 10

If you use a Microsoft account on your Windows 10 computer, you need to follow the instructions in Method 2 of this guide (or sign into the Microsoft online website) to change your password.

Method 1:

Change the Windows 10 Password from Control Panel

---

1. Open the Control Panel. Set the **View by** option to **Large icons**. Click **User Accounts**.

2. Click the **Manage another account** link.

3. Click the user account that you want to change the password for.

4. On the next screen, click the **Change the password** option.

5. Type in your current password and then enter the new one you wish to use. **Click Change password**.

Method 2:

Change the Windows 10 Password from PC Settings

1. Press the Windows + I keys together to open the Settings app. Click **Accounts**.

2. Click **Sign-in options** on the left side, and click the **Change** button under Password section on the right side.

3. Enter your current password and click **Next**.

4. Enter and reenter a new password, and set a password hint. Click **Next**.
